

1996 MOODY 36

£17,500 for 1/5th Share

SUMMARY

Varuna is a fine example of this substantial centre cockpit cruiser from the renowned Moody stable of high quality yachts. She is very well equipped and maintained to a high standard. She features a bilge keel with a draft of 1.2m, excellent for getting into shallow creeks and harbours, or drying out, and has a huge aft cabin with island double bed configuration. All points in a comprehensive 2024 survey have been addressed. The owners are looking for an additional member to join the syndicate which is a well organised friendly group of likeminded partners. The yacht is based at Sparkes Marina in Chichester Harbour.
